

Year 2: Bright Lights Big City

The Great Fire

- Pepys wrote about the Great Fire of London a year later in 1666.
- On 2nd September 1666, a fire broke out at Thomas Farriner's bakery on Pudding Lane.
- In those days, houses in London were made out of wood and were built very close together. It was easy for the fire to spread.
- The fire burned for 4 days and more than 13,000 houses were destroyed. Sadly, around 16 people lost their lives. Luckily, most people were able to escape the fire.

Who was Samuel Pepys?

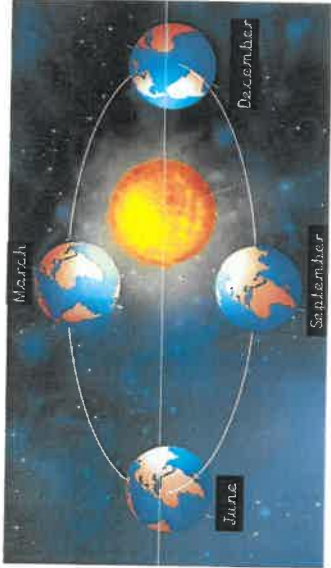

- Samuel Pepys worked for the British government and navy and lived during the 17th Century.
- He is most famous for writing a diary between 1659 and 1669.
- Today, we use his diary as a historical record of the events of the past.

Weather	Name	Season
	Sun	Summer
	Rain	Spring
	Snow	Winter
	Wind	Autumn

Geographical features are man-made (human) or naturally made (physical) features of

The earth also moves around the sun to give us our seasons.

Once around the sun = 1 year
