## **ONLINE SAFETY**

The below has been taken from GOV.UK and is guidance based on “Support for parents and carers to keep children safe online”.

While there are huge benefits to being online to stay connected to family and friends, the government recognises many parents feel concerned about the activities and content their children are accessing. This guidance outlines resources to help keep children safe from different risks online and where to go to get support and advice.

### Keep your child safe online

It is important to have regular conversations about staying safe online and to encourage children to speak to you if they come across something worrying online.

Talk to your child about the importance of creating a safe online environment, including keeping any log-in details and passwords safe.

The below resource is designed to support you to talk to your child about a range of online safety issues, set up home filtering in a child-friendly way and set up age-appropriate parental controls on digital devices:

Thinkuknow by the National Crime Agency - Child Exploitation and Online Protection command (NCA-CEOP) - resources for parents and carers and children of all ages to help keep children safe online
